self-government is made in the bill, and it is not intended that the form of the District Government shall be changed.

Among the probable candidates for this seat are Cotter Bride and Charles W. Slater, and interesting developments are now expected in a contest between these two leaders of the anti-Norris faction. It is said today that a breach has already occurred between them. In this event a third faction will be created. Another development indicated today is a boom for Edwin Sefton as a candidate for a national committeeman. Mr. Sefton is the neutral member of the local elections committee, and his friends say that he could draw strength from dissaidand anti-Norris factions, should he place himself in the field.

Violets, a few American Beautics, or a multi-flowered plant of Easter lilles.

Extra Stands Erected.

In the market today there seemed hardly space for the great number of plants brought in from the hothouses. Many of the florists who have stands in the market provided for the extra supply of violets promsted to be extants, and here the extra assortment was placed.

To one entering the market the sight was about as pretty a one as could be desired. It was a great stretch of the purest white flowers, with here and long as she is happy.
